

Dear Mr. Baum,

Thank you for all of your effort, time, testing and knowledge regarding the analysis of the mold and water damage in our home.

We appreciate your dedication to your profession and your expertise. After many months, the builder has decided to buy the home back at market value and we know your

presence and knowledge during the many meetings with the builder was a contributing factor. Thank you for all of your help and we look forward to working with you in the future, if the need arises.

Sincerely,

Elizabeth and Sean Kelley
