Hollywood FL 33021

Re: Maurice Baum

Dear Mr. Baum:

It is with great pleasure and confidence that I write this professional reference letter concerning your expertise in the area of industrial hygiene. Your strong commitment to excellence and dedication to the indoor air quality industry sets you apart as a leader in this complex industry. Through the years, I have consistently observed your dedication to each individual client as exhibited by the comprehensive investigative reports that support your environmental findings and recommendations.

As a trial and courtroom specialist with what we believe to be the largest Plaintiff's mold litigation practice in South Florida, I am particularly suited to judge the efficiency, professionalism, and dedication you demonstrate in the field of industrial hygiene. Our clients in mold cases have greatly benefitted from your participation in their matters. Indeed, your involvement has been an important factor in the successful resolution of these matters.

Very truly yours,

Scott N. Gelfand, P.A.
