Raquel Green
Registrar
954-236-1470

Zulma Priede,
Program Asst.
FISC
954-236-1471

To whom it may concern:

Maurice Baum is our Director for Microbial Programs under continuing development in the Florida Institute for Safety and Construction in FAU's College of Architecture, Urban and Public Affairs.

Mr. Baum has been teaching courses, designing curricula and acting as our liaison with the American Indoor Air Quality Council since 2000. He is recognized as a leading authority in the field of microbial remediation and assessment. As such he participated in the development of the new Florida Mold Bill that was signed into law last year by Governor Crist.

He is working as the leader in an effort by FAU and AIACQ do develop a proposal to the Department of Business & Professional Regulation to suggest the operative rules and regulations for the new mold bill that will be in effect in January, 2010.

Best regards,

Gene Ouellette, Executive Director
